SUBJECT INDEX

electric power
  supply demand and economics 5–15, 29–42, 43–51, 53–62, 63–79, 221–237
energy policy and planning 17–28, 43–51, 53–62, 63–79, 81–91, 321–328
energy sources
  coal 127–149
  consumption and conservation 81–91, 221–237
  exploration 359–362
  natural gas 321–328
  petroleum 359–362
  waste products and others 329–343
  wind 93–101
  wood plant and animal materials 127–149, 268–272, 329–343
  general 5–15
energy utilization
  general 205–219, 268–272

mineral economics
  finance 113–125, 345–357
  investment 183–199
  general 239–246

water resources assessment
  ground water 263–268
  hydrology 272–274
water resources planning, development and management
  development 151–166, 167–181, 307–319
  finance 289–305
  institutional aspects 247–261
  law and legislation 247–261
  management of shared water resources 247–261, 307–319
  policy and planning 289–305, 362–367
  public participation 289–305
